

Accessing your report

Once the appointment has been completed, reports will be issued back to the referring manager, via the portal.

The screenshot shows the Cognate Health Referrals portal. The left sidebar contains navigation options: Case Management (Create new case, All cases, Open cases, Closed cases, All referrals, Open referrals, Closed referrals) and Employee Management. The main content area is titled 'Referrals' and includes a search bar and a table of referral records.
